EXPERIENCE

Android Developer, Web Emotion

Varna, Bulgaria — September, 2015 - December, 2015

Creating, editing or modifying Android Apps using latest library's and APIs. Programming interaction and business logic with Java using object-oriented principles with the latest library and Google recommendations. Testing multi-screen devices compatibility for inconsistencies. In the time, I was in the company I have worked with Parse Facebook Cloud Server to develop a social network for the company needs. Teaching myself how to write proper Unit Tests and Instrumental tests with JUnit, Mockito, Espresso with the help of my colleagues.

Business Analysis, 158 Ltd

Varna, Bulgaria — 2014-2014

Help potential customers make the best choice when selecting one of the company solutions for their needs.

EDUCATION

Varna Free University, "Chernorizets Hrabar"

Computer Science — 2012-2016 Defended Thesis Android Development

Received Bachelor of Science in 2016, a 4-year program finished with honors. The Head Master gave me a job at the university for one of my projects. Object Oriented Programming with Java, C/C++, Web Design, Adobe Products, Electronic Business, XML and Web Technologies, HTML and JS, Fundamentals of Law, Databases: SQL/ JDBC, SQL Server, Eclipse, Internet Programming, Data Structures and Algorithms, Software Technologies, Network Programing with Java, Android Development and all programming languages fall amongst the most interesting and memorable courses for me. Having graduated in this major disciplines gives me a broad foundation for personal and career development.

OTHER EDUCATION HIGH SCHOOL

Varna High School, “St. Nikolay Chudotvorec”

Varna, Bulgaria — 2006-2011

Graduated as Electrical and Electronics Engineering in 2011, a 4-year program finished with honors. In the meantime, I was working 12 hours shifts in my country as a Chef every 6 months of the year with no days off. I have been working there so I can afford my education in the University. Pleasant and great team of people who gave me the opportunity to be something more than I was when I started working with them.

OTHER EXPERIENCE

Chef, “Bar / Restaurant, Pico”

Varna, Bulgaria — 2006-2011

I started working as a Chef Assistant in my first year in the kitchen. Next year I become a Chef and I was responsible for clearing orders, providing the kitchen to be in a respectful way for the work on the next day. Working and supplying / resupplying the Kitchen making big orders for more than 2000 people every day, working close with the managers on promotions for the restaurant, and keeping the team ready for work when the Chef wasn't there.
